EXPERIENCE

Solutions Analyst - CaseCenter (Web Development) - GDS Link LLC

August 2023 - January 2026

- Optimized loan origination systems for global banks by delivering resilient front-end and back-end solutions, boosting reliability and user experience while resolving critical production issues.

- Transformed complex credit bureau XML data into clear, actionable reports, streamlining decision-making across Lexis Nexis, Experian, and TransUnion integrations.

- Modernized legacy projects through rigorous testing and cross-functional collaboration, aligning technical improvements with global business goals.

Freelance Full- Stack Web & Mobile Developer - (Part-time)

April 2024 - December 2025

- **Mechanic Booking App (Apr–Aug 2024):** Delivered a full-stack web and mobile solution with real-time notifications, online payments, and integrated maps—helping students launch a polished capstone project with real-world functionality.

- **Athlete Monitoring App (Aug–Dec 2025):** Designed and developed a React Native mobile app enabling performance tracking and monitoring, empowering student athletes with actionable insights for their capstone project.

EDUCATION

Bachelors of Science in Information Technology with Specialization in Web and Mobile Application - FEU Institute of Technology

August 2018 - September 2023
