Bachelor of Science in Information Technology with Specialization in Web and Mobile Application

Manila City

September 2023

Work Experience

GDS Link LLC

Makati City

Solutions Analyst - CaseCenter (Web Development)

August 2023 – January 2026

- Optimized loan origination systems for global banks by engineering resilient front-end and back-end solutions, enhancing reliability and user experience, and resolving critical production issues to ensure uninterrupted operations.
- Transformed complex credit bureau XML data into clear, actionable reports, streamlining decision-making and enabling faster, more accurate credit assessments across Lexis Nexis, Experian, and TransUnion integrations.
- Modernized legacy projects through rigorous testing and cross-functional collaboration, strengthening system performance and delivering scalable solutions aligned with global business goals.

Freelance Full-Stack Web & Mobile Developer

Remote

(Part-time)

April 2024 – December 2025

- Delivered a full-stack Mechanic Booking App with real-time notifications, online payments, and integrated maps, streamlining service scheduling and improving customer convenience.
- Engineered a React Native Athlete Monitoring App for performance tracking, enabling students to gain actionable insights and enhance training outcomes.
- Guided student teams in launching polished capstone projects with real-world functionality, boosting project quality and bridging academic work with practical technology.

Circuit Solutions Inc.

Ortigas, Pasig City

Full-Stack Web Developer Intern

April 2023 – July 2023

- Enhanced the Human Resource Information System (HRIS) by developing new features and refining existing workflows, improving usability and efficiency for HR operations.
- Built dynamic front-end interfaces with Vue.js 2 and robust back-end applications with Laravel, ensuring seamless integration of designs with structured workflows.
- Authored comprehensive technical documentation to support maintainability and knowledge transfer, enabling smooth handovers and long-term system reliability.

Highly Succeed Inc.

Mandaluyong City

System Administration Intern

January 2023 – April 2023

- Resolved system tickets promptly to maintain smooth IT operations and minimize downtime across organizational workflows.
- Administered user accounts, access controls, and permissions, strengthening system security and ensuring operational efficiency.
- Supported IT infrastructure through comprehensive system administration tasks, contributing to reliable performance and streamlined processes.

Certifications

- Information Technology Specialist in HTML & CSS by Certiport, a Pearson VUE Business - 2022
- Microsoft Technology Associate: Database Fundamentals by Microsoft - 2019
